W.W. DIMOND'S

By the Miowera the other day, we received direct from the factory, a magnificent assortment of French China. Among the lot we have two new stock patterns, from which customers may select either one piece or ten dozen. In this way customers may replace any breakage at the lowest possible cost and without the necessity of purchasing an entire new set.

In this same invoice we have some of the most beautifully decorated toilet sets ever shown in Honolulu. These are made of fine crockery and will ornament any wash stand.

A fad among Honolulu people is decorating china. At the exhibition by the pupils of Miss French at Oahu College a short time ago, some beautiful specimens, the work of her pupils, were shown and will stand comparison with the work of professional artists abroad. Our stock which was opened a day or two ago contains all sorts of pieces and in many sizes. They are made especially for decorating and are inexpensive.

1895 Rambler, \$75.00

Trusting that you may be interested in cycling, we take the liberty of stating to you a few facts about our wheels:

We need not trouble you with needless description of the World Famed "RAMBLER" Bicycle, which by its easy running, appearance, strength and lasting qualities has won for the makers a name world renowned.

The "RAMBLERS" are equipped with the great G.A.J. Detachable Tire, which since its introduction to Honolulu has proved, by the numbers in use, the most successful and necessary adjustment to a bicycle.

We take great pleasure in recommending to our friends the "RAMBLER" and trust that in furnishing one to any person they will never have occasion to regret.

Our terms are such that a bicycle is no longer a luxury but a necessity in actual saving of time and money. We would ask you to but call and get our figures.

1896 Rambler. \$95.00

As is customary nearing the close of each year, the makers in order to get ready for the ensuing year, offer the present 1896 wheels at reduced prices. We are now prepared to give our customers the benefit of these reductions as long as our stock holds out. For those wishing an up to date wheel of the highest grade, one which we can guarantee to the fullest extent, we would offer the "RAMBLER." As to improvements for the coming season we would say we anticipate none. Such changes which may be made will, as has been the past two years, be changes immaterial to the improvement of the wheel in general.

Kindly give this some thought or call your friends' attention to it and oblige.

Yours truly,

E. O. Hall & Son

MILLINERY AND PARASOLS.

The Brightest Colors, Though Not Always Becoming, Are Most Worn.

Large and elaborate hats are the rule, with a preponderant quantity of flowers of all colors. Purple and green and blue and green seem to be the favorite combinations. They are seen in changeable and flowered ribbons, and a changeable effect is obtained by running the two colors of tulle together in roches, puffs and choux.

The bright yellow straw so much in vogue are very pretty and picturesque. It worn by a woman with a rich enough complexion to bear the solid mass of bright color near her face. Not every woman can wear the strong red, blue, purple and gold colors that are shown in this season's straws.

Hats are coming forward over the eyes more and more. This is not a generally becoming style, as it conceals the hair above the forehead, which always has a softening effect upon the face when it is visible. Bonnets also are inclined more toward the front. Small, close shapes are well liked, but they must be of very good material. Some of them are of costly embroidery and have only a small amount of trimming, but many share the fate of hats and are loaded with flowers, tulle, jeweled ornaments, feathers and ribbons.

Finely plaited tulle, mousseline and lace, with applications of a heavier quality of white lace, are novel millinery trim-

ming this season, and often entire hats are composed of these filmy materials. They are very light, cool and pretty, but not very means durable. In fact, usefulness and durability are by no means features of this summer's millinery, light colors and fragile materials prevailing.

Umbrellas and parasols are infected by the general taste for gaiety and are seen in all colors and combination of colors. Parasols are rather small. The simpler ones are of checked, changeable and flowered silk, while the more elaborate ones are adorned with lace, flowers and embroidery.

The open parasol shown in the sketch is of pinkish lilac pongee and is lined with silk to match. The outside is ornamented with large sprays of purple clematis painted in water color, and a garland of the same decoration runs around the edge. The parasol is bordered with a frill of double pongee, having a small heading. The second one is of white silk crepe, with a printed floral pattern. It has a wide ruffle at the edge and a ruche at the top. The handle is of light wood, with a gold knob.

What the Spanish Need.

A group of men were talking over the Spanish anti-American riots yesterday in front of the Bailey block, and the war spirit ran pretty high. As usual with sidewalk statesmen, each knew just what should be done by the United States. There was one suggestion made that "brought down the house." A wag said that what the Spanish needed was something to cool them off and he suggested sending them a cargo of Rainier Beer, and added, "when the Spanish find what good beer the Rainier Beer is, they would not want to fight with the country where it is made."
